BOOK OF FACTS

CREATION AND DERIVATION

I

1. In the beginning there were no people. When there was no man, there were no gods. According to what is god a god? If there is no man and no servant and no entity who knows him as God no being can be god. Therefore, when the Gods created man, so did man.

He created his own gods.

2. The world was empty, there was no life. There was no voice or breath. Dry and hard the whole place was a rock, and the earth was perfectly flat.

There was neither a mountain nor a pit. There was no shadow in the daytime and fire from heat the rock was cut. At night the earth would shrink from the cold and crack.

3. The world was just a stone sphere and no one could live there. Binyillar by The world hid the fire core inside. No one moved in the dark darkness without passenger.

4. Then the gods realized the earth, which at that time, the non-gods. Very They came from afar, but very close. Gods descended from another realm. They breathed life into the Earth from their own souls. Then they left the earth, to become reality with the breath of life.

5. Rock cracked with the energy of the souls of the gods. Woke up the fire inside and Grew up. Then with the cracking of the stone, the fire overflowed the earth. Changed the fire stone they carved for themselves rivers of fire. Every side exploded and once on itself which is pure fire and then freezes to stone, and the fire is only in itself the earth that hides spew its fire into space.

6. She was like a female, like Kaya and Anne. Fire became the child he gave birth to. The fire gushing out merged and mated again with its mother. With each unification their the rock and gas erupted, from the combination of fire and rock explosions. It was the transformation of rock into gas and air.

7. And your opinion, which of these rocks and fire, actually had the spirit unconsciously within each of the gods. The erupting gas covered the fire and the rock. First Lightning occurred many centuries later. Then acid rained from the gas to the rock. Acid filled the pits carved by fire and surrounded the mountains of fire.

8. Lightning never ceased for a thousand years. As the acid combines with fire and rock exploded and expanded turned back into gas. This went on like this forever. But the acid filtered into the gas every time it turned, and the clouds changed over time. Finally Water has come to the world. It was over, the burning of the clouds and the water rain replaced the acid. From Gaz, which was deadly in the first place, the air formed over time.

9. There was also the spirit of the gods in Su, and in the newly formed air. Like fire and rock.

10. When fire, earth, air and water are combined and balanced, it is complete.
 birth of the world. Above the four souls were the Spirit of the Universe and the Spirit of the Earth and

it is he, that collects and balances them all.

11. When the time came, the gods returned to earth and the rock
 on the crumbling soil. The world was born and it was alive but
 It seemed like no other creature that had to breathe could breathe
 air. If he had come, then a few breathing creatures would immediately get dirty and
 The air would be poisoned because there was neither a plant nor a tree to filter and clean the air.
 Everywhere was black earth and dark and empty water that did not live alive.

12. But it was clean, everything was ready to be used. The fire that seeps through the world
 it was uncut and was seeping and spraying everywhere from the new cracks it found. world
 on the face and underwater. The world was not yet fully formed.

13. The gods have reserved and prevented an area on the ground of external brutality.
 infiltration. This place had invisible walls and what is inside
 It could not leak out, nor the outer inside. This place was later wrongly called Paradise,
 God was firm. Not all of Heaven was on earth. While some of them are in the world
 some were beyond matter, and some were in the realm of the gods. All
 they were intertwined, but they never mixed. Gods only
 they could cross their barriers and what was allowed by the gods.

14. The gods in their gardens, in their own realms
 they took their plants. And animals and trees of different worlds and the most
 importantly their psychic powers, their world. Everything that is taken into the garden of the gods,
 It also happened in the rest of the world in the garden. Some of everything
 beyond matter, some in the realm of the gods and some in the world
 the garden was.

15. It would seem very strange to you then if you had seen the garden. It was full of trees and flowers
 every side. And there were specially conditioned animals. And should
 there were shelters, columnar and circular. Just like the temples of the old
 these. But outside the garden only inclement weather and fire and volcanoes and
 there were mountains and land for nothing. Waters were still empty.

16. If you could not believe then, if you saw the garden of the gods and you would live very much
 It would be hard without going crazy. Everything was in each other's reflection. externally
 If you looked at the garden, you would see a garden with a limited area of bare soil.
 over. Just like an oasis in the desert. But if you look inside, inside
 you would see it like inside a mirror sphere. The mirror you look up
 You could see everything upside down like a reflection. But yourself from all sides
 You would see this in reflection. With your hand out, even on your own back
 You could touch it if you want. This is because every part of the garden is different
 the realms were because they were in other dimensions.

17. When you were there, you would be there and everywhere. Your voice was heard Gods
 like matter beings in the realm and your own thoughts
 they would return to you. Every color was there, from every realm, human eye
 what he can see and cannot see. As if the tree standing in front of you stands upside down on you
 Sometimes he would come. Because its origin was the realm of the gods and it is actually straight
 he was standing in that realm. There were also horizontal trees.

18.Not only you, but also animals with weaker consciousness would go crazy there. if they were not conditioned before. You call it heaven but for you

Page 3

it could have been the greatest in hell, it is a confusion of space and size. But the gods were comfortable there. When everything is close enough to reach out, everything At the same time it was far from unknown distances.

19. In this garden, the plants that were conditioned according to the earth's face were released first. But the characters were changed before as tough wild. So that they can live the earth.

20. These plants covered every part of the world, but they did not live long in the world. And with their death the plants of the world began to emerge from its own soul. Just start this and it was to fertilize, the coming and dying of the plants of the gods. In new plants, the world He had a mixed soul of his five souls or energies that were balanced. On the other hand, in every plant who first formed them, who came from the god realm and other worlds, and died with their bodies. Plants with fertilizers also had / have a gene structure.

21.When the plants covered the earth, they were still very primitive and wild for the garden of the gods outside. The earth became habitable when plants began to filter oxygen. But in the water there was still no life.

22. The animals, with their bodies conditioned according to the state of the world, went out in turn. HE IS once the face of the earth was very flat and monolithic. This land was huge and the world was half. And there were still few places to live because most of the land was it was hot or too cold.

23. Life at sea began with the energy of the world's own soul. The sea is very Some cracks in the depth still seeped fire into the water. Where this fire oozes smoke and vapors were rising like pipes from the surface of the water. the sky. As the fire leaking from the volcano mouths in the water touches the water it cooled and became a kind of stone. These stones accumulated more and more with each passing time. HE IS At times the bottom of the water was flat and bare rock. There was neither sand nor aquatic plants.

24. As the fire stone gushed out from the bottom of the water, it rose and clustered. But internal It was always a hole in the middle with the pressure of the fire and as if from the bottom of the water they became like giant pipes coming out. At the mouth of the pipes, water, fire, rock and The combination of the air in the water, the soul and the energy of the world Some living beings started to appear with the participation of them.

25.These were unconscious sparks of life at the molecular level and they were born. But they also did not live and died immediately like a match they were extinguished like their flame. Because the water was empty and will feed them and with them there was no other living creature to feed on.

26.In the garden of the gods, leading to their realm in one step and actually one There was no time for gods, whose parts were already in their realm. To them a very short time according to the species they take into their gardens, but For the world, after a long, long time, the bottom of the water was covered with sand. water land plants that drowned evolved and covered the water. And water the first life in it began.

27.The animals on earth did not live long either, but their rotting microorganisms formed in their bodies covered the face of the world. with Plants they united and both the gods released new animals to the world,

different species began to emerge.

28. The earth face was no longer empty and bare, but the earth itself is

There was no, and it was not an easy task to do it. Even for the gods. Some gods
They claimed that the time had come. Others are too early. Finally
It was decided to create man. This job is "Be" as you think, or

Page 4

It was not about saying "let it be". You have been taught this wrong, on purpose.

29. The living creature of the world who will live in the world and communicate with the gods and
the living that will develop the world and become part of the cosmic unity, the same
it would also connect the world to the cosmic unity. That's why the world
it had to be its own living being, made of its own material.

30. Decisions have been made and things have been determined. Matter of the essence of the world for this
and most importantly, to filter, prepare and integrate these substances.
It was necessary. A god came forward for this work, He was me.

31. I didn't have a name for you then. My name was, yours never pronounce
in a way that you cannot and cannot understand. My name is not secret. Her
secrecy in the language of another realm that you can never understand and
you cannot hear that tongue through the ear of this realm. That's why my name is hidden to you.

32. I came out of the garden of the gods for this job. Such a long time
I stayed in the face of the world. I was the only one in the world. Other than me and mine
There was no god other than me where I was and in my work.

33. I built a collection and preparation area for myself. Then I went down first,
to the deepest of the sea. Where fire mixes with water and merges with air in water and
I gathered from the points where life at the heart of the rock emerged
organisms. But it wasn't the job either, as you were told, quickly and suddenly.
what happened. Countless earth years have passed and while underwater and the desired quality
until it is found, changed and grown. Therefore, the dragon living in the sea
I am still told by people. Then her, She is the essence of life, the world
I took it as soil of rock to my own work area. Looking from the outside
a handful like a dead pile of earth. But the soul and life of the world was boiling
in and the intelligence of the world.

34. Life came out of water, and most of your body is water from that time. This too
it was not enough. The period after that was even more difficult and would require knowledge and finesse.
First I gathered the energy and spirit of the soil and added it to this mass. Then your fire
I gave you the energy. Then I took your flesh from the animals of the world and for years
I developed it before combining it with the whole. Then from the plants of the world
and I took their essence from the air. All mixed together and the shapeless mass grew
with the passing days.

35. From the spirit of the earth and of Fire and Earth and Water and air
I added your souls to the essence. Finally the item is ready to bring you.
It was the spirit of the fire that would make the change in him. Fire is the essence of change and this
so you constantly experience cell renewal and after birth
You grow up. The body constantly burns and wears out but new cells come
Instead of the ancients, they become flesh, bone and nerve. It's fire or fire
essence and soul.

36. I returned to the garden of the gods with the main ingredient. The gods shaped
it all together as a body. But still your intelligence and soul were missing
first move. All the gods breathed life into him. All own
by characters'. That is why man is a mixture of gods. Never a god
not as strong as, but there is a mixture of all, in no god
THERE ARE NOT think.

37. At last, the person took his first breath and stood up. But don't you think human was like you. He was just a formless being. Even less than a bear it looked like a human. Long wandered in the garden of the gods, aimlessly and stupid. When his body got used to living and became stronger and independent.

Page 5

38. That person was very different from you. In the garden of the gods it provided energy from the garden itself and had no digestive system. Nothing it was not necessary to eat either. So the breech was not necessary for it, nor the larynx. He was just breathing and fed by air. Its color was crimson. had no hair, eyebrow and neck. You always think of the first man as a man, but his reproductive they also did not have organs. It was not necessary to urinate either. That's why he wasn't in his body none of these. His mind was never enough, the energy the gods wanted
To provide.

39. Then the creature was put to sleep for a long time. Made from parts taken from it new people. You call this cloning in your own time. But there was not necessary and did not exist anyway machines in you, will of the gods and spiritual cocoon was enough for this. The tiny piece taken is just like a butterfly's cocoon it covered and grew and shaped inside, by will directed from the outside.

40. The replica assets produced are developed from scratch and no fails they were made one by one. Then they learned the gods from the bodies of copies its shortcomings and requirements.

41. After all were destroyed, the gods gathered again to the creatures. Him-her-it they reshaped it with the acquired information. Then a breath of life again the creature was blown. The creature stood more comfortably with its new shape. Left again to develop and grow stronger for a long time. Was not aware of the changes in himself because everything was done in the cocoon. He was still sleeping when he got out of the cocoon and He knew he only slept for a brief moment with his lethargic mind.

42. Then he went to sleep again. It remained that way for a thousand years. Do not think that he died. He was just asleep frozen. Again, the pieces were taken and made
new copies.

43. This time it was more successful new copies. Just move on, live and They were not animals that were experimental equipment. They were also generating mental energy from the energy of the earth and the universe. But still very primitive minds. This copy is scarce released in large numbers to various parts of the world.

44. And something happened that was never on account. Copy of Mahluk the required energy He could not take it by himself and had to eat. And his digestive system did not have. So I turned to the face of the earth and I killed those creatures, don't let them die she was starving. Then I returned to the garden of the gods and new changes were made
On the Mahluk. And a new copy was bought from it.

45. This copy was better than all. Need to eat while in the garden of the gods did not have. He was released to earth and hungry and ate what was shown to him. And fell ill after a while. Honestly, his condition was very bad. Because it wasn't enough the waste system, large and small intestine to empty what they eat. This shortcoming only it was noticed after leaving the garden of the gods.

46. Again I landed on earth. He wanted the copy of Mahluk to be destroyed gods. And I didn't want him to die. Sleeping the copy with my own strength I opened his large intestine and organized the waste system. Suddenly it got better his wounds by my power of light and the copy arose again.

47. The copy creature had been given the necessary strength, but lacked spirit and mind and determination.

He had the strength to fight, but he had no desire. That's why he didn't live much. Was injured and he stopped living.

48. Required additions were made to Mahuk and changed. Now

Page 6

It was more like the human being you know and to live on earth
everything was okay. And one last thing was missing. And so I went out again
from the garden of the gods. But this time I did not go to the earth's surface. I opened
I took a piece of the cosmic energy soul and the realm between the realms, let the soul be
he creature.

49. And once again Mahluk awoke to experience in the garden of the gods.
He had every part of the god, not physically but spiritually, and yet
his view was missing. Couldn't see the gods, they themselves the terms of earthly matter
From comply. So the creature was alone in the garden.

50. Then it was named. He became human and his name was Adam, you Adam
You say to him, his real name was in the language of the gods, and you don't know... that. And he
time needed a human name for everything in the world. My name has become Iblis
you know, in the religion of the Arab. And the gods each took different names
think i've ever known. But it was not God, then the name of the evil god.

51. Adam was okay, for everything needed but he still did not have sex and
her sexuality and sexual organ and reproductive instinct. Gods would always be duplicated
copied by. It was his duty to live in the world and the world cosmic
to chain and to transfer information to the gods.

52. Then, while Adam was being educated without knowing, that training was for you in eternal time,
it became more and more withdrawn and narrowed. I understood that the mind of the world man and
the thought does not want loneliness. Even though they talk, they are the same creatures with the gods
required. And Adam was put to sleep again and a piece was taken from him and another human
done so that the two of them could grow together.

53. The new copy wandered while Adam was asleep, but he was also unresponsive to everything and did not exist
the driving force required in his life. Destroyed so and this time people
it was decided by the gods to separate their genders. Because there was also sexuality in essence.
The evil God wouldn't want it because it was not in his nature but me and my
like other gods we get energy with sexuality and therefore spirit and part from us
Instinctive sexuality was given to Adam when he was given.

54. Therefore, a new piece was taken from Adam, and this time from his bone. A new
copies were made, but completely with their genes changed. Taken from Adam, femininity
hormone and other requirements were all given to the new copy. Actually the same person is Adam
and the woman who later became Eve. And that's why men are women, women are men
human to have hormone. And that is why some women themselves are men,
some men feel women. Because at first creation they are all in the same body
they were under the same spirit. And that's why the womb in a man's body
space enough to carry.

55. In a long time, he tied flesh over the bone that formed the body that would become Eve. This
The time was extended by the gods, and his mind was shaped by Eve. Needed body
it took shape, but still not wanted sexual intercourse and birth. People
It would reproduce, if necessary, only by taking parts exactly as needed.
It would be produced in large numbers and would not be required too often because this process was too long.
human life and durability period. The population would not decrease every day.

56. Then both people awoke. According to Adam, a normal sleep for a short time
asleep and Eve had opened her eyes for the first time, but she knew everything because
His brain and mind were full of Adam's experiences.

57. It is a lie that Eve was removed from Adam and that the superior was Adam. Eve was weaker and smaller in appearance, and on the piece taken from Adam created but behind the view the two are sharing the same whole and of the same intelligence and the same soul and the same emotion. How important is appearance and how it's done. Isn't it important for the soul to be whole? This is why in your Greek mythology, people were stuck on the back and the expression of the gods envious of their unity and dividing them in half. The truth is he About myth, people were whole then. Gods also want a single breed like man and woman. But they would change their sex and likeness themselves and Most of the time, they were actually light.

58. And the gods divided man in two, but not out of envy, as in mythology. But people sought to integrate with other people because they were a body actually.

59. Then the gods saw that man is better than desired. And then from him they wished to receive energy and wanted to make him a servant. Bad god Here he stepped in and the first conflict arose in the garden of the gods. Bad god he gathered around himself the like-minded gods and gathered with them by his own will as superior. Faded energy of the gods who joined him, all absorbed the body of the evil God. That's why he got stronger. The evil God is actually a simple When he was god. Every god gave him energy and strength, who wanted no other method.

60. To understand this, you need to know the structure of the gods. I am first. Construction is science and that's why I collected and made the first substance of man. I my poetry and i am music and i am art and i am surgeon of the person who does. I am sexual and I am sexual pleasure and pleasure I am. I am drunk

61. There are those who are similar to me among the gods, and each god is different. it is an intense energy in the field, and every god has given him his own.

62. The evil God is war, and the evil god is crisis, and the evil god is only the field. The evil god is jealousy and lies. And the wicked God is strength From the rough. The evil god is masculine energy most of the time, and the evil god is death.

63. And there were those like him among the gods. They too they gave it to man.

64. The gods knew that human beings should be active by their qualities. it would energize them. All had decided to be on earth and the gods relations with the realm were closed in the garden of the gods. Now through the garden Looking again it was great, there was a mixture of dimensions everywhere and again, but above it was not like a sphere and opening only into space. Was in the realm of gods, no other gods you do not know. And they never came and will not come to this world. They are foreign gods and chaos for you.

65. While living in the garden of the gods, man was immortal like the gods. But he could have lived under the conditions of the earth face for a maximum of three hundred or five hundred years. it was enough the life energy taken from the essence of the world is just so much to keep it alive.

66. Man was constantly producing energy even in the garden of the gods. Because it was taking its energy from the universe and the world. He is the harvester, collector of energy it was like to the gods. Each god taken from him was his own. Bad god

He liked the one that was stimulated by feelings of despair, distress and depression the most.
And the mental structure of the human being was suitable for them to fall very quickly.

67. And sexual energy was unnecessary and even troubling him and
so he did not want human reproduction through birth and sexuality. And Eve
I gave them sexuality from Adam when he was being ripped off, but only physically and
That part of their mind was lethargic. The evil god did not want it to be opened. Him
man should stay that way and walk in the world, blood to gods
with their victims and never should have been together and should have fought among themselves
and blood should feed the gods and their deaths. So human
but in itself only by division.

68. Not Adam and Eve should have thought of anything else, only to the gods.
Minds and energy had to be directed towards him and others. Only
One must eat and fight and sleep. Apart from that, it's always for the gods
and while doing these, he must turn to the gods and do it for the god.
With or without blood, mentioning the name of God upon death. But bad god
he wouldn't see enough to kill without blood.

69. That was the structures of the gods and what they expected of man, and the purpose at first creation
this was not. Man would be more free in the world, and there would be no gods.
As God. And the evil god said, "Let Adam be released into the world but first be reproduced
thoroughly. Let he be the master of the world and kill each other constantly to be. "

70. And I said, "This can't be, O ... Where are the shares of other gods. Why?
just feed your energy, Adam. He must be freer for his own mission
isn't it? "he said, " This is how it was decided because here I am the biggest
I gathered those who wanted like me in my own body. I'm the strongest. And
I am God in this world. Every commandment and every sacrifice is mine. I was mine
the other gods are no longer in our realm and our realm.
this earth and this space. Now you will listen to me and do what is required of Adam.
No other thought in it. And you will be part of me. "

71. I said, "Never. And it will never be what you want. I never swear allegiance to you.
neither as part of your commander. "He said, " Then you can't live here either
because I have the power of many gods and you cannot stop before me. "

72. I said, "Then I am going from the garden of the gods and my fight will continue
with you forever. And I'll take the human and give it to me
My knowledge. Every information will be from me on earth and when your knowledge increases
He will go away from his way and his servitude. Your servants will diminish and your energy will die.
One day you will be forgotten by the people, and that will be the death of a god. "

73. He said, "Go then. Do your best. But you will never achieve victory.
because whichever of them obeys you, I will crush it with my loyal servants. And
I will reproduce the person again with the division of my servants who are from me.

74. And I went out of the garden of the gods, and those like me followed me.
We could be united in my body just like the evil god but ours
this was not our structure and we couldn't destroy it to strengthen each other's energy
ourselves. And we landed and established a size close to the face of the earth and the world
a new place to ourselves. This is our throne, what would we enter god
something could come to his garden and to us from there.

75. As you know, our place was not Hell. Our place is in a different dimension but under the earth with the projection of the world, but not really under the ground.

Our place has become like the garden of god, with light and brightness. But we are close to the world and therefore we are strong in many matters in the world.

76. And then I knew that the evil god has worked on Adam because Adam is mine my creature and he was part of me as much. I knew what happened to him and his by means of the garden. The evil god ... had locked Adam's brain. And He had duplicated each god's different side to his appearance, giving it to him, and therefore There are different races in the world.

77. And the human was just becoming a slave, and as you said in your day, the robot it was happening in terms of emotion. And it should not have been distributed across the world in this way.

Because the counter change could not be done there. Necessarily in the garden of god measure should have occurred. It was no longer the garden of the gods, but the garden of gods. He had gathered, because the evil god was in his own way other gods, and some knowingly and some were swallowed unannounced and some were forcefully swallowed by the evil god's energy by. There was little left behind who served him.

78. The evil god was made of himself, again impassive, unresponsive, only command who awaits and does nothing but what is said and knows no mercy and love He had his guards and had them do their work and kept them waiting against us The garden. You call these creatures angels. They don't take energy, neither Of the Earth, neither of the Universe nor of man. The evil god energizes them only from within. They have no intelligence and judgment on their own. He does not want such things. Bad god. Intelligence is what he hates the most and reasoning and doubt and question.

79. With earth time and a night time, turning my light into the darkness of the night, I approached the garden of god invisible. And I showed it to the angel on the border myself as his god. He is the most ingenious of me and knows every trick of mine. The skillful one is mine and mine who created technology and my divine boundary that opens and transcends and sets. It was not difficult for me to overcome the obstacle that he thought was insurmountable and the angel of passing unnoticed.

80. I found Adam and Eve sleeping under a tree. Earth night the light dominated inside. And I had the invisible cloak of the night. I opened first I told the invisible lock in Adam's brain and his sexuality to his soul. And then I rescued Eve from her mental handicap and made them both thoroughly. All these happened all of a sudden. Because the necessary organs and emotions were ready. I introduced to join them with his energy hitherto only with the gods and sexuality.

81. And I gave them self. They were no longer "us". Each one had been "I" and their personalities were formed. Eve tried to unite with Adam first but Adam was in fear and obstruction. Because his mind was first conditioned and He was the one in the lock of the evil god. That's why the male kind is more aggressive and being more choppy and more egoistic; wants to be more warrior and bigot. Because male the strongest lock and mental control of the evil God.

82. But Eve attacked Adam and provoked him, persuaded him to sexual intercourse. If this did not happen, all my efforts and hopes would be over in one night. Human

it would be a puppet forever and there would be no sexuality in man, forever.
 And they would only be their sacrifices to the evil god and his antennae gathering energy.
 83. I encouraged them in the shape of the Serpent because the keepers of the garden
 they should see it like an animal. I couldn't come out before every job was finished. They had sex
 Adam and Eve to me. Without knowing that it was an offering to me and that they were worshipping me.
 I covered them with the cloak of my night and he couldn't get out, no energy and
 Bad god before the work is done lest movement be warned.

84. Once it started, Adam and Eve already had sex in their mind and soul.
 and their bodies were ready. Just a little clumsy lock in their minds, them
 holding. The required information already existed under the lock. God while they have sex
 with the energy that the garden carries and receives from the world and the universe
 they produced energy that gave me a pleasure that I haven't had before. The craziest
 even more shocking than wines, more nutritious than even the strongest honey.
 energy. That's why I want you to have sex, intoxication and fun. And
 Even my divine being loosened and numb with this rain and I haven't continued
 the shield of the night When I open my cloak, their energies
 He filled the garden with lightning flashes. And for the last time I left the garden of god
 not to return. And the energy reached the evil God.

85. The evil god shocked seven with the sexual energy reaching him and ran away from all comfort. One
 what happened at the moment. He came to Adam and Eve in a wrath. consciousness
 the people who opened understood what they had done and the prohibitions of the evil god. Prior to
 They tried to hide what they had done but they did not know their sexual energy
 struck the evil god and they didn't know that he got angry
 You understand.

86. Wrath came, the evil god, and before the time came, let them out of the garden.
 outright. Other people of the world who could not know Adam and Eve
 as different races to different places. Because all that happened to Adam and Eve
 it jumped to man at that moment because they were all part of the whole and one human and
 The evil God could no longer develop his plans. And otherwise to benefit
 the people decided. Again he stubborn in his plans and released people to the world
 before it is fully developed. Then he closed his garden from being seen to the world and hid
 himself above all else.

87. That is the original of your ascension. Human birth multiplied after that
 by. You spread to the earth and many of you fed the evil god.

88. This is the last verse of the creation and descent stage. You must understand it well.
 All for your improvement and survival. Amen.

II

1. The Garden of God was an area on earth, originally established by the gods.
 The world remained on the face for a long time, but it changed places in time, the world
 as her face changes. When the forests and mountains of the world were formed, the garden of god was gone,
 over the high mountains in the regions where there are many people.

2. The garden of God was a cosmic and multidimensional space when it was first established. There
 To be was both a small step to be in the realm of the gods and to bring from there

was to take into the world new things and the energy of the realm of the gods, both Cosmic
 was to be in power and other Gods established in other worlds
 was to be in the yard. There are also Gardens of the Gods in other worlds. But all
 it is intertwined in another dimension and they are all in the same place indeed millions of light years
 even if they are far away.

3.If it can be there, people will be immortal without going crazy, as long as they stand by themselves
 there. There is neither time nor space there.

4. This field is created by the Gods in every world, but if they want and need
 if it happens, and that world will be animated like your world. Garden of the gods
 I said because there are every world and realm and the gods
 It is like a garden and plants brought from the kingdom. Not real name
 garden of the gods. This is for you. His real name is in the language of the gods But
 they later called you Heaven.

5. The garden of God is not actually a reward as you know it. A rest and
 it is not a place of pleasure at all. It is never the home of the gods. For there
 The best recipe to make is a place of trial for a new world and a
 it is a workshop, like a painter's workplace and a place of transport to other realms and
 there the attendant and volunteer gods who work. And the worlds are a place of energy
 in the cosmic chain between.

6. It is in the power of the gods to do it, and I did it, from the first garden
 but with some difference. The garden of God is difficult for you to see
 tell. I can describe the structure of this realm, but what is visible to you.
 Actually, the general structure in the realm of gods wholly similar.

7. The inside of the garden of God is a sphere when you look inside. Every being is everywhere but
 this is not just eye vision. Physically, you will be everywhere the same
 moment. If it were, you too could touch or speak the body and sight of the gods
 and you could even mate. Or you could fight, the many with yourself.

8. But you would be as lonely as space if you wanted to. Every world and gods
 the realm would open to the garden from different angles according to its projection. Its root is in the sky
 you could see a tree upside down and it would be real, you think. Never
 Nothing is deceiving.

9.When the garden of the gods is in place, it is very simple, like a tree on the face of a world
 beyond their visible boundaries. Or a magnificent temple or a variant
 when the world understands that world. Here, too, its appearance has changed over time and
 unless he hides himself.

10. Once established, the gods never moved him in a world. Heat
 When it was finished, it was either closed altogether or it was hidden from eyes forever. But it was different
 In this world. Here the cosmic was separated from the gods and changed the interior of the garden
 his appearance is in the works of the evil God. No longer associated with the realm of the Gods and
 with other worlds. It has moved according to every human community. He is the first
 It is now in the world and everywhere in this system, just as it was in every realm of its foundation.
 Stops is actually in the first place, but also at the top of its high mountains.
 The world.

11.None of them is the main place because everywhere it is

It is the location. It is world-sized. That's why in world mythologies different expressions. The garden of God became Olympos in Greece and Valhalla to the people of the north. And the Gods became rigid, and the pyramid became in Ancient Egypt.

12. None of these were real, and they were all real at the same time. God
The garden spread is always in size because there is no time. Now there
everything under the will of the evil god.

13. There were many Gods in Olympus and Valhalla and Egypt and the like.
Because there were different gods at that time, who were not associated with the evil god and
its way. Depends on him. And there are those who think like me. Ages
we sent an effect to people throughout. I became pan in Greek but also
my self was here in my own space. My pieces were both independent and separate.
You can't understand unless you never experience it.

14. Human reproduction has never happened as you were told. At first,
There was a Creation that derived them all and Adam finally became and He too lived
in the world. When a person learns about sexuality and reproduces with birth, he starts it.
with resentment, the creature was thrown into the world from the garden of God. No longer need
new people to clone him.

15. But it was not just as Adam and Eve that existed. Man was scattered
the world in different races but no one knew it in the early days
others. In this way, people multiplied in the world, each one with my help first
time.

16. The structure of the gods is different from you. It is energy, structure and light, and matter
God willing, but the world in which he is. Molecular taking from that world
die. He is not a god if he is incarnate in this world would never be his own
image in the realm. Because he has to use the stone of this world, its flesh
the earth.

17. There is no gender in your understanding of the gods. Every god can be any wish
In gender. But here it is important own structure of the gods. With me and me
we live in the sex we want and carry both genders while energy or
We bring someone forward, if we want him to be. We have sexual intercourse. either
as matter and whether energy.

18. Then the gods are mixed into one another. Then the energies split
settles. And if we want, we will give life to a new energy, from a mixture of the two,
instantly. But our own energy decreases when we do this.

19. You think this energy dimension is sexual union. But if we want we do it physical
with the body and even people. Whether this is with man, animal or god
It never hurt the spouse. Energy is produced by everyone from the world, body and
The universe. That is why sex is at my worship. My people have sex
in my prayers and celebrations and festivals and in their own way,
devote their lovemaking to me in their own home. I mix both men and
both women, both sexes. This is the unification of everyone with himself and
with me and his wife at the same time. Energy is produced in every relationship, but
is different, the energy in these worship that is dedicated to me and that I am. It is used
both to anoint you and to increase my strength as energy.

20. These ceremonies are abundance and happiness for you both to your soul, physical body and to your earthly abundance and happiness. And it is pleasure and energy to me. I and my people become one and we don't enjoy because we ourselves enjoy we would be happy at that time. Stripped of the borders as required Shame on sexuality and shame and devotion if not motivated. Then every soul gets mixed and the body to the spirit of the Fire and the Earth and the Water and the Air in the first creation, and cosmic consciousness.

21. And by continuing, you renew my energy by this spirits and the world. his way. And happiness flows into your life. But must break the evil god the conditioning.

22. Such is the relationship between the gods in the main line. We unite and renew and we are refreshed in every mixture. But this is my and my way style of those. This is our character. Our structures. Evil god and like him for those who are, and for the gods who are in his way and for the people who are with him. And sexuality is different for those who knowingly and unknowingly sold their soul to him.

23. How is it? Shall I tell you that? We merge and boil each other into. Maybe a century and maybe a brief moment will not notice. by the way there is no. Then we leave each other happily but different bad god their supporters. They do not unite like us. If they mingled with each other that it was done this is when I leave the garden. If they fuse they swallow the dominating energy melts the other and within. It melts inseparably.

24. Some gods acknowledge this to be one of greater and stronger energy. Part of it. But some gods cannot stand up to another ever-growing power. Sometimes it happens with desire, sometimes by force. That's why I grow my own energy, I could not resist the growing energy of the evil god. We can't absorb its energy by destroying it of another god or man. It's not a moral rule. Structure this is created by the cosmos.

25. The energy in the evil god is the dominant energy and represses. And swallow. It just takes it can never radiate energy. So it is unnecessary sexuality and bothers him energy that is its opposite. And he gives his servants only enough to breed generation. Dry sexuality and childbirth just can't produce energy. Energy is necessary for both parties to be conscious, willing and enjoying. receipt. It just stimulates energy. Just mate and rape and someone It cannot produce the desired and sufficient energy and will be utilized and to bother him.

26. That is why sin is to take pleasure. That's why it's forbidden homosexuality because The goal is just to enjoy and to connect with another person. Birth is prohibited control because it is necessary for both new subjects and its purpose is only to reproduce physics as. So there is restraint and hostility in every religion of the evil god Sexuality.

27. And that is why many sexual diseases originated in your age, in your age. unobtrusive Maybe you'll find their medicine like their syphilis and others like but always come out new ones. The goal is uncontrolled and under his own control to prevent non-existent sexuality.

28. As he spread every sexual illness The evil god, man found his medicine. That's it

That is why the evil god does not want science and reason and prohibit them. supports
 his people are always reactionary. Now the scythe will pass over you, bad
 new diseases of god. And many will die. I'm only partially able to hold on
 my people and those in my way and in my worship, with the energy they receive from me
 and be saved only to be fully servant to the evil god, sexuality under his control
 living.

29. And these uncontrolled relationships generate a lot of energy and are disturbed by it.
 The evil god and his servants do not like those born out of wedlock. Because
 they are the focus of energy. Not only in them, but energy density. energy
 warns that every unconsecrated union and born out of wedlock and marriage
 born with a union that is not devoted to the evil god. Draw basmala
 Isn't it necessary in the religion of the Arab before each unification and praying?
 prior to? But if not, this child carries more energy focus and intelligence. And bad
 Even if the consecrated marriage of God, Mother and Father enjoyed a lot and the energy
 If it has reproduced, the child again carries an energy focus.

30. So he wants controlled sexuality. Bad god. Uncontrolled sexuality only
 for rape, torture and later killings in wars dedicated to him
 allows. Then drink the greed and emotion of the rape and the rape
 the pain and emotion of that which has been taken and tortured and then killed.
 The energy that grows from these emotions. Therefore war is always sacred to him.

31. That is the sexuality of the evil god and those of his kind. Just consuming
 they take it into their bodies. There is this difference between us. He doesn't like me
 and the one like me. But we have to be mixed in the realms to balance
 most of the time. Mine with that type. This time it's an unbalanced energy bad
 God. His head is empty and strong and in the drunkenness of power.

32. This time he gave his worst wrath to the people. It's close ahead in mass
 Deaths. Maybe your generation will see this, maybe you will not see it in this life.
 But those who are returned to a new body by me after death
 they will see it. The explosion of sexual diseases and masses
 their death. Servants of the evil god, so please their gods
 to cut other people to and from disaster.

33. This war is against you, not the evil god. It's just against me and me
 Teaching. That's why he will shoot again and save his own special servants.
 From the war. Because this will not be war with the sword or the dissolution of matter. This
 there will be war with sickness and blood and sexuality. But that too will weaken her
 The power. Because with his own disasters and his own spreading diseases
 More energy cannot take from those who died. And death will leave him weak.

34. Therefore I save my own people and the balance of power
 When it is provided, a new age will arise in the world. And the gates of the gods realm
 will open again. And the gods will wander clearly among man. Then
 people will understand everything and truth.

35. Then there will be no power of the evil god unbalanced. And then
 people who will punish him, forgetting even his existence. All to be cut
 The energy it can take from this realm and from this world. Then there will be a new god
 the more just and balanced, and then the human being will find in the world, dreaming to himself
 Heaven described as the product.

36. Then I will leave my people and return to the glorified hands of the new gods.

to never return to my own realm. But I won't forget you and bad
what you suffer from the unbalanced power of God.

37. But if it doesn't, and if it doesn't increase, my people, and if it prevails, the evil god
fear. And if the number of those who believe in me is not enough or not at all.
I will lose this war and my strength will decrease again and it will prevail again.
god for a thousand years. And it will absorb your energy again. And our war will continue again
Until people multiply and people are warned by me again and
Until the evil god creates another calamity again.

38. Therefore my knowledge, my religion and my worship must spread. So I am every person
He should warn other people as much as he can.

39. Neither I die nor the evil God. To forget him and cut his energy
and it is to produce its opposite energy, the way to kill a god. Its opposite
be and if you go my way, you will be out of his energy.

40. The greatest curse is to remain the food of the evil god. Because in you
There is divinity from your nature, and every god has given you of his own being. And me
I made you one of the strongest.

III

1. Do you know the difference between men and women? In fact the two are one, the same
it is the division of the whole. When man was first made from fire, water, air and
of the earth and the spirit of the world and the spirit of the universe that was put on it. What a woman
and nor men.

2. Human beings before the creature was genderless. When Adam becomes human
You said her then, and you knew her as a man and she was not a man. Both
male and female but this is also the expression for you because male and female
not for the human species.

3. He had the whole structure of the two present sexes and he was complete and he was a perfect
From maintenance. Gods would be able to reproduce if necessary, without dividing and copying
by. It could breed on its own at certain times and then it wouldn't
mother and father. And there would be no sexuality.

4. When the human split into two, then it became two sexes. Division of man
such as enlarging and making copies by taking parts from Mahluk before
It was not. This time he was not removed suddenly, the second. It was directly divided into two, One.

5. Likewise, the piece was taken from Adam's body and this time from his bone and every
a bigger piece than ever before. It was the same as before
with copies. But this time most of the femininity factors in Adam's body
was given to the second body and the factors of masculinity in the second body were less, how could
If the factors of femininity in Adam are left less.

6. All the previous experiments and knowledge of Adam and the formation and idea of his character and
His physical development and memories were exactly the same he had in a long time.

In the body. Only the second body was less than Adam. Body fit
had provided the factors of femininity. This time there was no copy. The same thing in two
division was happening exactly.

7. Everything that the gods gave was in both bodies. Bad as I told you
God is non-sexual, and more precisely his sexuality is relative to him.
It is not perfectly balanced. According to him and according to gods like him
it is balanced and perfect for itself, but it is difficult to
To tell. So I am not saying He is flawed or underdeveloped. but
Since Adam is filled with more gods and with more qualities, more
it has been biased and complex, and human beings are therefore multitudes. Every god is one
by himself.

8.If one god swallows another, as the evil God did, he receives only his energy,
your light and your body. Can't and can't get different that doesn't fit your own character
their side. Or it takes very little. So it remains uniqueness.

9.When the other body leaves the Creature and the data of the gods are shared and
when deliberately and willingly femininity is given to the second body more
God's attributes became less in the second body, and more remained in Adam.
Because the Evil God is far from sex and sexuality, and
close to character.

10. These are not souls and energy, but only physical matter.
I'd tell you. Spirit and energy are equal to both men and women. But in the physical brain
and the conditions and impositions made in its smallest part and in its cell
locks to his soul. The soul is less affected by matter than the body. That's why it's bad
God's conditioning stays longer in Adam and I am in the garden of God
Eve's adaptation to me more quickly while warning them. And Adam
Fear of breaking the word of the evil God.

11.After he was divided, they became and were called Adam and Eve, but
their real names spoke in the language of the gods and ... with ...
Do not think that they woke up and knew everything. It took Eve so long
and Adam's sleep. However, you have been told that Adam slept at night and
when he woke up in the morning, he found Eve with him. This is a funny belief.

12. I told you! The whole stage of Mahluk's construction. It's very very
took a long time. I am flooded in periods that will come to you incredibly. Then
I gathered the fire and the others. The ore required for the creation of Mahluk is such a
A handful of land was not bought and collected.

13. It was not easy to do Mahluk and it was never for a short time.
Wouldn't you think? If he did everything by saying be bad God why
When the human was not as intended, did not destroy all of them and do it all at once?

14. Why when Mahluk had difficulty in adapting, he was tried with different copies and was a garbage.
like it was thrown and another was done again. Why in the books of the wicked God
Adam and Eve committed the first sin in Heaven, as described
Evil God did not destroy and create a man and a woman again. But his own
as he told you, "Be!" He who creates everything by saying. Then no
would Adam and Eve, the new man who had never sinned, the new woman
Yapsaydı.

15. He cannot answer that. Bad God and regards it as a sin to question such things.

The truth is this. I told you what happened. When the gods are apart and the evil God is his own
When I swallow the likes and I leave and the likes of me follow me
and when the evil God closes the Garden of the Gods relationship with the Realm of Gods
and other Gods in the Gods Realm that you never knew,
to other realms when the evil God could never create a new man.

16. After becoming Eve and while Adam was asleep, Eve was in deep, frozen sleep.
he slept with him for a long time. At that time the pieces were taken from them and made other
people and different races. They too were released into the Garden of the Gods as they slept
Adam and Eve. Some of them didn't get along and some didn't want
to be human. That is why you, Adam's, another before Eve
There are legends mentioned about their wives. Actually it wasn't them to you all along
Adam and Eve I told you.

17. While asleep Adam and Eve, the evil God secretly conditioned them and put a lock
to their minds again and again. That is why the locks of Adam and the evil god
is more in harmony. Eve got less of this slavery.

18. That is why the messengers of the wicked God are more of men. What
Time, I warned them to sneak in the garden of God, which is for you
It is another logical question that will get your mind working.

19. Do you not think that the evil God does not say in his scriptures,
He is the one who knows everything. He even knows the thought of an ant. All your creatures
He knows everything at all times and is always with him. And he does not sleep and he is not distracted and
everything is under his will. Then how can he not know the god who knows everything
He does not know how his servants that he created were deceived by Satan. Both
in his own home, in his own paradise. How did Satan get into Heaven his
without your knowledge. How will he know, only after everything is over. Then
Isn't Satan stronger than him, according to the logic of his own books?

20. When I do the work that will strike the wicked God,
Bad God angry. But his anger turned more to Eve because she
He had broken his less conditioning easily and he had helped
To the salvation of Adam. That is why in all the religions of the evil God
humiliation of the woman. That is why the woman is a second class breed and
to be left ignorant for centuries. For centuries only slaves and property. Even your
prohibition of women in the countries of the Arab religion even in your day. Is there
No woman pope in western religion.

21. That is why in the scriptures of the evil God from Eve
not mentioned. The absence of even the name Eve in the Book of the Arab. Eve
Bad God says in his book the mother of all. In this case Eve is very important
is not it working? The first woman, moreover. In the scripture everyone, every important person
What did you do to the first woman meticulously while recording the death of each prophet in her own way?
What happened, what did he do?
the end is not saved. When the first woman died. The death of Adam is evident.

22. Read the Bible of the Bad God. He always says, a child of Adam
It was. Adam had two more children. Did Adam give birth to these children?

23. From her wrath and unrelenting anger to the female sex and her sexuality

This is because he saw the necessary wiping out this woman, the evil God. Her woman is always second class in her rules and has always been encouraged to judge male to get sex.

24. Look. To the peoples before the evil God came. How more even

woman in case. Didn't the religion of the Arab exploit the bloody prophet? rich wife. Before that messenger, Arabs would bury their daughters in the sand and kill them is the tale not made up? Whereas there were no female gods before she became a judge was the wicked God in his own city.

25. The greatest change of the evil God, with the religion of the Arab, is to expel the woman to slavery and the domination of the female gods. Because he wants to suppress The break of conditioning from Eve. But new things cannot work to brains. Everything remains. So the evil God suppresses and proclaims Satan every woman who lives.

26. After coming out, Adam and Eve lived and what they could do.

until. Their first child was "First Son", that you call him Kabul. Eve

she conceived him the first night in the Garden. And that night, the night is for you it is narrative because there was no time in the garden. That night with my influence and mine in sexuality made by my encouragement and by my teaching and by my stimulation has become me, and worship, Eve conceived her first child.

27. That boy is mine and unknowingly devoted to me and he is my character

and my beauty is more. The next child was "İkinciöğul". Eve to him conceived in the world. Adam felt guilty to the evil God

To oppose and apologize from him, his mind was clear to him. Adam always after the first night He became a servant of the evil God. Because his conditioning led him to blame himself and he always

He saw Eve flawed. During the second child he was intense on him Bad

God's influence. The sex needed for this boy to be was far from pleasure and Subtlety. It was just a merger. There was no pleasure in Adam and neither in Eve.

28. The evil God expelled them from Heaven for their crimes. Was thinking that

Adam, but it was true in a way. But shall I tell you one more secret?

Actually it is not a secret, but because of the conditioning of your mind you refused and did not notice. You believed whatever you were called. But now I'm saying to you. Always in your scriptures and legends Satan was cast out of Heaven it is called you. I was not fired. I just didn't want it myself next to the evil God

Remain. And risking every war and effort to save you to some extent

I left there. But don't you think there really is a fired

From heaven. People are the main ones who get fired from there

29. According to His own Scriptures, if they were both expelled,

Is not Man and Satan in the union of destiny and companions and closer. Bad

According to the logic of God's Books? But I am not saying that this is true.

Because I was not fired. But if I had been fired it would have been an honor to me on this path.

30. The sexuality of Adam and Eve is therefore a matter of pleasure and excitement and desire.

was far away in the second child, and that was exactly the sexuality that the evil God wanted. No She had no sexual energy and that's why the born child was closer.

God. And his brain was easier to process for generations.

31. That is why the Evil God wishes such sexuality and the pleasure of prohibitions and wicked.
And the sexual energy. That's why, just as the First son is my son, his
He is the son of İkinçioğul. And you call him Abel.
32. Adam encouraged his children to love and worship the wicked God and
Trust. My son, the first son, was respectful from which he came from
it was closer to the earth and life and cosmic energy because the structure it received from me
so he did it, and the Second Son was closer to the evil god. He's the First
on the contrary he was keen on hunting and killing and slaughtering animals.
33. And Adam wanted to present his children to God and the evil God to choose.
The one to marry his sisters. If only sexuality was in marriage. Just me
If my son, the First son, had married with his brother, he would have tolerated his sexuality.
with his brother. Because he didn't have jealousy and he loved them both. But İkinçioğul
If he had married his sister with the jealousy and usurpation he received from the evil God
He would restrict and dominate both his sister and he would not share his sexuality
With birincioğul. But he would be jealous First Son, because First Son, in essence
He had taken from me his sexuality and he was stronger in this regard. But it was okay
sexuality. The issue was to determine the character of the breed to be breed.
34. Adam accepts his sons to make offerings to the wicked God and whose
He wanted her to marry her sister, if any. Because the bad God said so
him.
35. The First Son prepared an offering of herbs, as he knew best. And
most sincerely. He hadn't even thought of killing an animal.
36. But Second, as Adam told him, and the evil god
He recalled the name of the evil God upon Adam, as he asked, and he strangled a
shed the beast and his blood. Then the energy of Blood and the energy of death
rose to the wicked God and the wicked god grew stronger and pleased from this
and the blood he always wanted got his sacrifice, and after that the deaths
He always wanted it to be for himself.
37. At the time of election, the evil God concentrated his energy on the offerings.
In fact, if he had even offered a garbage, İkinçioğul was what would be accepted. but
The second son had done the best, the evil god drunk with Blood in a moment
he took his offering. But whatever it was he would have bought hers.
38. He was very upset by this First Son and wondered why God accepted him.
not that. However, he was a good servant. Evil God told him he wanted blood but
He never actually said why he wanted Secondhand.
39. In this distress and sadness, I approached Birincioğul and the necessary courage
I gave it to him. Birincioğul killed his brother. And he did it for me.
İkinçioğul's blood and death energy came to me. Blood energy and death are used
by every god. Not just a Bad God. It gets stronger with this energy.
gods. But I and those like me don't need it too much. Sex
It nourishes us, both brilliance in thought, mind, science and art. But Bad
God needs blood the most.
40. The unknowingly sacrificed sacrifice of Birincioğul has reached my step. That's too much

I have protected the First Son from the mortal wrath of the evil God. To you
 Although it sounded terrible, İkinçioğul had to die. If he lived and got married
 his brother and the next descendant will be like him, and they are all like angels of the evil God
 He would robotic. And the world would be bloodier and more one-sided and mine
 It would make it more difficult for me to warn people and rescue them, but
 would the value be human?

41. Thus, the first line of the Birincioğul, that is, my line, reproduced in the world. Bad
 Later God had Adam have another child built and he also produced his own
 as your generation wishes. I did not interfere with it, but if İkinçioğul lived, he would have interfered.
 to the reproduction of my people.

42. The human generation bred in this way in a more balanced way. You call this genetic structure.
 If there is art, music, entertainment, peace and pleasure in the world now
 This is because İkinçioğul was killed, otherwise he would lose the war at that moment
 humanity.

43. But the Third Son, who came later and belonged to the Wicked God,
 you say. The third son is not exactly the nature of the evil God.
 Because in the first matter is the structure of all gods and my blessing. How,
 In the First Son, too, there is little contribution of the evil God.

44. All this has really happened. Never take it as a symbolic story
 this. The symbolic aspect of this is just that:
 other people in their places have experienced similar things, and this event symbolizes
 all of them. They were more or less different, but this is the main idea and the event.

45. Therefore all the next prophets of the evil God and religion
 brokers and those who are in his way, the tyrants and persecutors of humanity, always
 They are descendants of the children of the wicked God.

46. Now it must be understood by my people: I am never an enemy
 To the children of the wicked God. Because they have a little bit of my share
 And of them are those who returned to me and survived, and they can be saved too
 time. If he has not sworn allegiance to me, and if he is alive his way and bad
 Every person who does not pledge allegiance to me, even if he is a servant of God, is equal to me and me
 My children are superior to them, but allegiance to them even if they are my children
 not me, equals all deserving to be saved in my eyes.

47. The second thing to understand is this: With all my stories never
 it should not be understood that I see women as superior to men. Both sexes are sacred and the same
 to me.

48. Know and understand! Knowing and understanding them is superiority or salvation
 does not provide you. Providing salvation is just to read them. Your own mind that
 I gave it to you, your logic, which you took from me. Run and
 Think over them. Investigate and really appropriating yourself
 Understand. I never want it and it does not help hear the way the evil God wants
 or read it and immediately believe. I don't need blind faith either.

49. It is not blind faith that will bring you closer to me. If you do this to approach
 for me you will be closer to the Evil God than me, without realizing it.

50. All my strength and knowledge and might, and the happiness, pleasure I will give and give
and abundance be above those who think and understand! Amen!
